idoodlelearning Announces Amber Agee-DeHart as President

Innovative Educational Company Appoints New President

Ottawa, Ontario – August 27, 2015 – idoodlelearning inc., an educational development company offering innovative solutions to bridge the gap between traditional and digital learning, announced that it has named Amber Agee-DeHart as the company’s President.

Amber, who has been the Chief Education Officer for idoodlelearning, will now take on the role of corporate President. Her office will be responsible for programs design, software, curriculum and tools to help teachers and students around the world discover and harness their creative intelligence and to engage in more meaningful and richer learning experiences in preparation for globally connected, knowledge and skills based economy.

“Since joining idoodlelearning, Amber has done an incredible job as our Chief Education Officer. From launching Cubes in Space to spearheading our professional development division, she has been instrumental in the company’s global growth in a short period of time”, said Robert Sowah, Chief Executive Officer of idoodlelearning inc., “As President, we believe Amber’s 20 years of curriculum and instruction experience in the design and delivery of integrative STEM, workforce development and aerospace education programs for students and teachers around the world will better serve our clients.”

idoodlelearning has a range STE[A]M-based education products and programs from the global design competition, Cubes in Space, to creativity software, manipulatives and professional development institutes for educators.
